# HEALTH COMMITTEE

#### Chairman:

Alderman F. G. WEBB

#### Members:

Councillor J. R. BROWN

Councillor J. CARVILL Councillor W. M. BROWN Councillor S. PEARSON (Deputy Chairman) Councillor D. A. PHILLIPS Councillor Miss B. SLACK

Town Clerk: S. BRIGGS, LL.B.

#### PUBLIC HEALTH STAFF

Medical Officer of Health, Port Medical Officer, Divisional Medical Officer (East Riding County Council):

J. H. MAUGHAN, M.B., B.S., D.P.H.

Chief Public Health Inspector and Cleansing Superintendent, F. W. O'HARA, M.R.S.H., F.A.P.H.I., R.S.H. (left 12th October, 1966). W. E. FEATHERSTONE, D.M.A., M.A.P.H.I. (commenced 28th November, 1966).

> Deputy Chief Public Health Inspector: J. B. SIDEBOTTOM, M.A.P.H·I.

Additional Public Health Inspectors: C. JACKSON, M.A.P.H.I., A.R.S.H., R.S.H. T. C. L. MILLS, M.A.P.H.I., M.R.S.H.

Student Public Health Inspector: PAUL S. ROBSON.

Clerks, Public Health Department:
(Chief) P. H. WOOD.
Misses P. BROWN, E. UNDERWOOD and P. M. MILNER
(left 11th September, 1966).
M. A. WARDILL (commenced 5th September, 1966).

Health Office, Oxford Street, Bridlington, August, 1967.

To the Mayor, Aldermen and Councillors of the Borough of Bridlington.

Mr. Mayor, Ladies and Gentlemen,

I have pleasure in presenting the Annual Report for the year 1966.

The Registrar General's figures for the year indicate a mid year population of 26,370, an increase of 120 compared with last year.

During the year there were 354 births and 491 deaths compared with 361 births and 496 deaths last year. The adjusted birth rate for the Borough of 16.64 compares with a national birth rate of 17.7 per thousand population, and an adjusted death rate of 11.73 compares with a national death rate of 11.7 per thousand population. The causes of death again follow the usual pattern, diseases of the heart and circulatory system being the major cause and cancer the second largest cause of death (together accounting for 80% of the total). Of the deaths due to cancer it is of interest to note that cancer of the lung andbronchus remains the most common and being more common in males than females. There were six deaths of infants under one year of age, compared with seven last year.

On infectious diseases relatively few were notified during the year and call for no special comment.

1966 saw the retirement of Mr. O'Hara as Chief Public Health Inspector, as reported in last year's Annual Report, and Mr. Featherstone, who took up the appointment in November 1966, has submitted this year's report on the environmental health service, from this it will be seen that there are few changes in the sanitary circumstances. Water continued to be supplied by the East Yorkshire (Wolds Area) Water Board and was satisfactory in quality and quantity. Sewage disposal continued as in previous years.

On housing, 34 properties in Kirkgate and Pinfold Street were again represented under Section 42 of the Housing Act, 1957. New houses continued to be built, 17 being erected by the Council and 109 by private enterprise during the year.

It is disturbing to note the drop in the number of inspections of food premises during the year, 1,604 in 1966, compared with 3,112 in 1965. In his section of the report Mr. Featherstone points out that certain food preparing establishments have not been inspected owing to the lack of time available to the Public Health Inspector, and he makes a plea for an additional Public Health Inspector to meet the growing demands on their services.

Obtaining qualified Public Health Inspectors has always been difficult, but if the establishment of Public Health Inspectors employed find that they have insufficient time to carry out public health duties, such as the inspection of food premises, which are of special importance in a holiday town, then in my opinion consideration should be given to passing to Officers differently qualified the administration of those services which do not require Public Health Inspector training. Whatever other work the Public Health Inspectors are required to carry out, their essential public health duties must have first call on their time.

In presenting this report may I express my thanks to the Staff of my Department for their work during ther year and to the Chairman and Members of the Health Committee for their constant interest and support.

I am,

Yours faithfully,

J. H. MAUGHAN, Medical Officer of Health.

# GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

#### HOSPITAL SERVICES

The hospitals in the town are under the Scarborough, Bridlington and Whitby Group of the Leeds Regional Hospital Board and are as follows:

# Avenue Hospital

This hospital has 21 maternity, 17 acute medical, 10 post operative and 10 geriatric beds and 8 special care baby cots. During the year there were 592 live births. 10 chronic, 188 medical and 239 surgical patients were admitted.

Ante and post natal clinics are also held at this hospital.

#### Lloyd Hospital

This is a small general hospital, and a summary of the work carried out during the year is as follows:

# Total admissions 1,544.

Out-patients Clinics, 3,669 new patients with 10,580 attendances.

X-ray Department, 4,853 attendances.

Physiotheraphy Department, 888 new patients with 11.816 attendances.

Accident and Emergency, 7,204 new patients with 19,006 attendances.

Operations, 1,382.

#### Bempton Lane

This hospital has 72 geriatric beds, and during the year 107 patients were admitted.

#### Miniature Mass Radiography

The Miniature Mass Radiography Unit of the Leeds Regional Hospital Board visited the Borough in May and held public and private sessions. A total of 1,386 persons were examined.

#### NURSING HOMES

There are two Nursing Homes on the Borough Register.

# NATIONAL ASSISTANCE ACT, 1948

#### Part III. Accommodation

Accommodation is provided by the County Council at Burlington House and Danes Lea. These two homes together have beds for 114 elderly persons.

#### Section 47

It was not necessary to take proceedings under this section during the year.

# LOCAL HEALTH AUTHORITY SERVICES-

## NATIONAL HEALTH SERVICE ACT, 1946

The following services are provided in the Borough by the East Riding County Council as the Local Health Authority:

#### Infant Welfare Clinics

Two Infant Welfare Clinics are held in the Borough, one at the County Council's Oxford Street premises and the other in the Church Centre, West Hill. The Oxford Street Clinic is held every Monday and Thursday afternoons, and the West Hill Clinic on the first Wednesday afternoon in each month.

Attendances at the Oxford Street Clinic during the year were as follows:

By infants under	1 year of age	2,498
------------------	---------------	-------

Attendances at the West Hill Clinic were as follows:

By infants under 1 year of age ........... 85

## Domiciliary Midwifery Service

During the year the three Nurse/Midwives residing in the Borough attended 3 domiciliary births.

#### Health Visiting

Four Health Visitors work in the Bridlington area from the Divisional Health Office, Oxford Street (telephone number 5381).

## Home Nursing Service

This service is run in conjunction with the Domiciliary Midwifery Service and six Nurses (3 of whom are also Midwives) reside and work in the Borough.

# Ambulance Service

The County Council's Ambulance Station is situated in St John Street (telephone number 2421).

#### Domestic Help

Home Help service which is rendered in the Borough is administered at County Hall, Beverley, and all applications for the service are dealt with by the Home Help Organiser (telephone number 0482 881281).

#### Mental Health Service

The social club continued during the year to hold meetings at the Burlington Methodist Church each Friday at 7 p.m. The club had an average of 10 persons per week.

# LOCAL EDUCATION AUTHORITY—SCHOOL HEALTH SERVICES

Routine medical inspections are carried out of all children attending Local Education Authority schools in the Borough. In addition the following facilities are provided at the County Council's Oxford Street premises:

Minor ailment clinic ... Daily 9 a.m. to 9-30 a.m.

Ophthalmic clinic .... Twice monthly.

Dental Clinic .... Daily.

#### OTHER LOCAL AUTHORITY SERVICES

## Buckrose Health Division Co-ordinating Committee

Once every two or three months a Co-ordinating Committee, under the aegis of the County Council, meets in Bridlington to co-ordinate the work of officers in the district who are concerned with the welfare of children. The primary objects of the Committee are the prevention of cruelty to children in their own homes and the prevention of break-up of families.

On the Committee are representatives of the County Children's Department, the County Health Department, the School Welfare Department, the County Welfare Department, the Housing Managers of the District Councils, the National Assistance Board, the National Society for the Prevention of Cruelty to Children, the Women's Voluntary Service, Probation Officers and a Marriage Guidance Counsellor. Representatives of other organisations are co-opted from time to time as the need arises. Your Medical Officer of Health in his capacity as Divisional Medical Officer takes the Chair of the Committee.

#### PUBLIC HEALTH LABORATORY SERVICE

Specimens for bacteriological examination are sent to the Public Health Laboratory of the Medical Research Council at Hull.

#### VOLUNTARY ORGANISATIONS

#### British Red Cross

The British Red Cross Society, acting as agents for the County Council, provide a service for the loan of nursing requisites which may be needed for temporary periods for sick persons being nursed in their own homes. In Bridlington the Depot for these requisites is under the control of Miss Rowe, Divisional Headquarters, 33 South Back Lane.

#### Women's Royal Voluntary Service

The W.R.V.S. provide numerous services in the Borough, which includes:

Meals on wheels.

Good neighbour services.

Darby and Joan Clubs.

Trolley shop at Avenue Hospital and Burlington House.

Assistance with renewal of batteries for deaf aids.

Clothing in cases of need or emergency.

Canteen Service at Lloyd Hospital for out-patients.

# Family Planning Association

The Family Planning Association hold a clinic each Wednesday from 7 p.m. to 8 p.m. at the Oxford Street premises.

#### Cervical Cytology

East Riding County Council hold a fortnightly cervical cytology session at the Oxford Street Clinic, Bridlington.

#### National Society for the Prevention of Cruelty to Children

Bridlington lies within the North East Yorkshire Branch of the National Society for the Prevention of Cruelty to Children and cases requiring the services of the Society are visited by Inspector White working from Scarborough. Inspector White's work is much appreciated by those of us in Bridlington concerned with child welfare.

# ANNUAL REPORT OF PORT HEALTH AUTHORITY FOR 1966

The Port of Bridlington is not a Food Importing Port, nor is there any Passenger Traffic.

# ANNUAL REPORT OF CHIEF PUBLIC HEALTH INSPECTOR AND CLEANSING SUPERINTENDENT FOR THE YEAR 1966

Health Department, Town Hall, Bridlington.

To the Mayor, Aldermen and Councillors of the Borough of Bridlington.

Mr. Mayor, Ladies and Gentlemen,

I have much pleasure in presenting my first annual report concerning the environmental health services as administered by

this section of the department.

The major statistical and factual content of the report were provided by my predecessor, however I can now in writing this report speak with a certain degree of hind sight on the work carried out during the year. None of the work is static in that new and complex problems continue to arise. I consider that it is my responsibility to draw attention to such matters in order that the correct decision will be made.

Meat inspection and other obligatory duties undertaken by the department have taken the lion's share of the District Fublic Health Inspectors' time with the result that we have neglected many of our statutory duties. The progress made under the Offices, Shops and Railway Premises Act 1963 has been very slow indeed and it is not possible to carry out re-inspections at all owing to lack of time available.

Our record in the field of "Houses in Multiple Occupation" gives rise to great concern, only some 20 houses and flats have been

inspected out of a total of over 2,000.

If the department is to progress and fulfil the duties and obligations over the whole range of services it will be necessary to take a serious look at the establishment for Public Health Inspectors. At the present time there is certainly an urgent need for another Public Health Inspector, in fact there is more than enough work for two. I would ask the Council to give this matter their urgent attention in order to ensure that the present situation does not deteriorate further.

In conclusion I would like to take the opportunity of thanking all my fellow officers and staff in the department for continued support and to record my appreciation of the confidence and backing which I have received from the Chairman and members of the Health Committee.

I am.

Yours faithfully

W. E. FEATHERSTONE, Chief Public Health Inspector and Cleansing Superintendent.

# **PUBLIC HEALTH INSPECTIONS**

# INSPECTIONS CARRIED OUT BY PUBLIC HEALTH INSPECTORS

The total number of inspections for all purposes amounted to 6,838 and were made up as follows:—

Sanitary inspections	3,586
Housing inspections	
Food inspections	1,604
Shops Act inspections (Closing hours, etc.)	25
Factory inspections	42
Offices, Shops and Railway Premises Act inspections	197
In addition 998 interviews have taken place.	

# NOTICES SERVED

- 141 Preliminary Notices were served.
- 159 Preliminary Notices were complied with.
- 16 Statutory Notices were served.
- 8 Statutory Notices were complied with.

(b) Number of inspections made for the purpose
3. Number of visits to houses in Multiple Occupation
Transcer of visits to nouses in manapie occupation

# ACTION DURING THE YEAR IN RELATION TO UNFIT HOUSES

#### SLUM CLEARANCE

The Kirkgate No 1, No. 2 and No. 3 together with Kirkgate and Pinfold Street No. 4 areas were again represented to Council on the 12th October, 1966, with a view to effecting clearance by way of Clearance Order procedure. This course of action was the result of the Ministry Inspector who recommended that the Borough of Bridlington (Kirkgate and Pinfold Street Clearance Areas) Compulsory Purchase Order 1964 be not confirmed.

## UNFIT HOUSES DEMOLISHED

16 houses were demolished in existing clearance areas, making 16 dwellings demolished and 5 families, totalling 14 persons were displaced.

Two houses were demolished as a result of procedure under Section 16 of the Housing Act 1957.

Also during the year two houses were closed and two families, totalling four persons, were displaced, and under Section 18 of the 1957 Housing Act parts of two houses were closed. No re-housing was necessary.

#### UNFIT HOUSES MADE FIT

Informal action by the Council resulted in 28 houses being made fit and it was found that formal action was required under Section 9 of the Housing Act 1957 on one owner to make the house fit and 16 formal notices were required under Public Health Acts.

No Local Authority houses were required to be made fit.

#### OVERCROWDING

No serious cases of overcrowding were found.

#### RENT ACT 1957

No action required.

# HOUSES IN MULTIPLE OCCUPATION

As stated in my opening remarks our record in this direction gives rise to great concern as only 20 houses and flats were inspected out of a total of over 2,000.

#### FOOD CONTROL

#### SLAUGHTERHOUSES

The public slaughterhouse in Rhodena Avenue is still operated by the Corporation and is under control of the Health Committee. During the past year successful negotiations were comp'eted between the Corporation and the British Railways Board for the purchase of the open field adjacent to the slaughterhouse for continued use as lairage facilities. The one private slaughterhouse at Corn Exchange Yard is still in operation.

A total of 9,050 animals were slaughtered in the Borough during the year, an increase of 493 over the previous year. Cattle and calves show decreases of 78 and 1, and sheep and pig increases of 591 and 31 respectively. The number of animals killed at the private slaughterhouse shows a decrease of 50.

Meat inspection is being carried out at the Public Abattoir and at the one private slaughterhouse. These duties are taking up to 70% of the District Public Health Inspectors' time. This may seem out of all proportion, nevertheless, it must be pointed out that it is incumbent of the Council to secure 100% inspection of all animals prior to and after slaughter. The time spent on meat inspection more than adequately shows why we are unable to do other work which we would and should like to do in other spheres.

#### FOOD HYGIENE

There are many premises in the town which do not comply with the Food Hygiene Regulations and there are many boarding houses and other food preparing establishments which have not been inspected. This situation has been forced upon us owing to the lack of time available. If we are unfortunate enough to have a food poisoning outbreak then no doubt this problem will receive the urgent attention it deserves.

In addition 1,958 jars, bottles and packets of foodstuffs, 13 crates of cauliflowers, 19 chocolate animal figures, 1 turkey, 7 chickens, 4 rabbits, 170 coconuts, 56 corn cobs, 33 pies and cakes, 36 bunches of onions and 8 stone of peanuts were condemned.

#### MILK SUPPLIES

All milk sold in the Borough is heat treated. There are two dairies in the town and 90 registered milk distributors. 49 visits were made to the aforementioned premises. There have been no major changes in pasteurising equipment during the year.

#### CLEAN AIR

Daily smoke filter and volumetric sulphur dioxide readings have continued during the year at Portland Place and Headlands Lower School. Sixteen smoke nuisances of various kinds have been dealt with during the year and it is pleasing to note that we have been called in by plant boiler operators for advice in plant installations, adaptations and in connection with the design and calculation of chimney heights. From our records it will be seen that there is an increase of central heating equipment being installed in houses throughout the town and the interesting side effect of this is the increase of refuse from these particular houses. I would in passing draw attention to the paradoxical situation which now prevails within the town concerning the installation of appliances capable of burning smokeless fuels. The Council in their wisdom have considered that there is not a need or demand to adopt the Bye-law concerning the installation of approved appliances. Yet the majority of premises under construction in the town are fitted with one or another form of central heating or appliances capable of burning smokeless fuels. In the older houses there is abundant evidence to show that the old coal-burning appliances are now being replaced at a rapid rate. From this I consider that it can be reasonably assumed that there is an awareness of the advantage of a smoke free atmosphere. Futhermore, the Council should add further impetus to this demand by adopting the said Bye-law as soon as possible.

#### DISINFECTIONS AND DISINFESTATIONS

#### Infectious Diseases

Sixty-eight visits were made in connection with notifiable infectious disetases.

#### Verminous Premises

Disinfections were carried out at three premises.

Disinfestations were carried out as follows:-

Bees 3, Fleas 1, Flies 1, Cockroaches 10, Wasps 23, Clover Mites 5, Earwigs 16, Beetles 4, Silver Fish 1, Woodworm 1, Owner's Request 1. Total 66.

#### WATER

# Examining Laboratories:

Public Health Laboratory, Hull.

The Northern Analysts, Hull.

The Public Health Laboratory is used by the Health Department for Bacteriological Examinations. The presence of Free Chlorine in Chlorinated Water is carried out by my own staff.

In addition to the above, regular samples of water are taken by the East Yorkshire (Wolds Area) Water Board.

There have been no complaints regarding the quality or quantity of water within the Borough.

# WELFARE ACTS AND REGULATIONS

Offices, Shops and Railway Premises Act, 1963.

Work in connection with this Act has not proceeded as far as I would desire and, unfortunately, only seven offices, 14 retail shops and two catering establishments received an initial inspection during the year. We did, however, carry out 197 re-visits.

The total number of premises registered up to the end of the year is as follows:—

Offices	114
Retail Shops	
Wholesale Shops and Warehouses	20
Catering Establishments and Canteens	
	480

489

It is hoped that during the forthcoming year more attention will be given to this very important Act, as it affects so many of the working section of our community.

#### CAMPING

# LICENSED CAMPS

Situation	Owner	Number of Caravans
Marton Road, Bridlington Pinfold Street, Bridlington	Mr. W. Gatenby Messrs. G. V. & C. E.	282
Jewison Lane, Bridlington	Parling Mr. J. L. Ireland	20 217
Lime Kiln Lane, Bridlington	Park Estates (Bridlington) Ltd.	
Jewison Lane, Bridlington	Mrs. G. M. Pilling	60
Charity Farm, Sewerby Marton Poultry Farm, Bridlington	Mr. H. Lount Mr. J. Rowley	188 100

Improvements are being made to all the camping sites within the Borough and this is a feature which will always be with us. The tendency is for standards to rise and it is our job to ensure that they do; we are constantly making suggestions regarding the improvement to permanent structures on the sites, at the same time trying to take account of the good æsthetic qualities which can be got with a little forethought when alterations to layout are being made.

#### CORPORATION CARAVAN PARK

Many improvements have been made and at the present time we are just completing another section of the road system. In addition, with the help of the Parks Superintendent, we are making rapid headway in the improvement to the gardens by planting shrubs and trees. Much is being done and more will have to be done if we are to set the correct example to the private licensed sites. Another feature which I have introduced is that concerning the need for greater care in choosing the right colours when painting works are necessary. I have now had all the public sanitary blocks painted in light pastel colours, which has made for light and bright looking buildings as opposed to the former drab greens.

To improve the refuse collection service to the caravans we have now begun replacing the traditional dustbins with large capacity bulk containers. This will reduce the number of pick-up points, and, in addition, we will be able to dispense with the practice of siting over 200 dustbins, which, to say the least, are rather unsightly. To sum up I would say that if the Caravan Park is to retain its eminence as one of the best in this country, then the process of modernisation and improvement will have to continue at a much faster rate.

#### ORGANISED CAMPING

The popularity of the camping site at South Cliff is beyond question, during the season the camp was used by a whole range of boys' clubs and other youth organisations. In addition, we had the usual Scooter Club Rally the District Association of the Camping Club of Great Britain. We also had the pleasure of once again receiving—at Easter and September—the Caravan Club. In total, all these organisations bring somewhere in the region of 4,000 visitors to the town, often at a time when trade is rather difficult.

Members of the Council will be aware of the proposals to move the camping site from its present location to the piece of land situated alongside the golf course and bounded by the Hull Road and the Wilsthorpe Road. I am rather concerned at this proposition for the following reasons. The present site is readily accessible to the beach, which is ideal for those using it and the site itself has excellent drainage even following very heavy and continuous rain. If we were to move to the proposed new site there would be the major problem of dealing with a site which is continually waterlogged and which may require costly drainage works. There is no direct access to the foreshore, which—unless there was a path through the Caravan Park—would mean a considerable detour for those wishing to use the facilities of the beach. A public footpath through or adjoining the Caravan Park could create a serious nuisance to the people on the Caravan Park and there would be a possibility of loss of revenue. I have discussed the question of the new site informally with some of the bodies and organisations using our present camping area and their reaction has been most unfavourable to say the least. In fact, many people have said that it would be the end for this type of amenity in Bridlington for the reasons I have already described. Personally, I think it would be a mistake to alter the current arrangements, and would ask that representatives of the organisations concerned are at least asked for their observations before a final decision is taken.

**FACTORIES** 

# Inspections for purpose of provisions as to health.

	Number	N	Tumber of	
Premises	On	Inspections	Written	Occupiers
